

Coming out 94 from Rogers:

From the corner of Hudson Road and 2nd Street (94) it is 3.5 miles to the turn onto Tuck Chapel Road (#1) – you'll pass a Fellowship Hall on the right just before Tucks.

From the turn off 94 to where Tuck Chapel makes a complete right turn is 1 mile (#2). This will be right after a sharp left curve in the road. **(There will be a road sign for “Joe”. This is the road right BEFORE the curve to the left and the Tucks Chapel right turn, which has NO road sign) It will look like the road continues straight because the paving continues straight. But the right turn is the small section of Tucks that is not paved. Always head towards the new water tower, if you can see it. (This turn of Tucks Chapel is the 6th right-hand road after turning off 94, if you want to count.)

Then you have about .3 of a mile, it will be the 3rd driveway on the right after the water tower and a right-turning curve. (#3) There is a sign hanging on the fence.

Coming out 62 from Rogers:

Past Anderson's Propane, Feed Store, Gas Station, turn left onto Cemetery Road, the 2nd on the left past Anderson's. (A)

At the end of Cemetery Road, turn left onto Tucks Chapel (B).

Tucks Chapel will make a sharp **right turn** at Landers Road (a “T”). Then we are the 3rd driveway on the left.

There is a short-cut from Bentonville. Starting at Central and Route 72 (Moberly Lane and Central at White Oak Station). Veer Right onto E. Central 1.6 miles (and over 540; past Water Tower Road and Dixieland Rd) Turn Left onto Little Flock Drive and drive 2.6 miles to the end of the road. Turn Left onto N. 2nd (94) - Cornerstone Assembly of God is on your right; then it is 2 miles to Tucks Chapel Road, and the rest of the directions are above – turning right onto Tucks Chapel from 94 just past a Fellowship Assembly church.

From Pea Ridge even if coming that way from Bentonville or Bella Vista – turn right onto 94 at the intersection of Route 72 and 94 (stop sign) and Tucks Chapel will be 2.5 miles from 72/94 intersection on the left (Rustic Dr. is on the right). Then follow other directions from ** above.
